Anderson Police Department
AB481 – Military Equipment Inventory

The following consists of an inventory of qualifying equipment utilized by the Anderson Police Department, including descriptions, capabilities, and associated costs.

---

1. Unmanned Aerial Vehicles (UAVs)

- **Quantity:** 5
- **Capabilities:** Remotely piloted sustained flight for aerial surveillance and data collection.
- **Expected Lifespan:** 3 to 5 years.
- **Product Description:** Commercially available aerial platforms designed for a variety of industrial applications, offering configurability, flight safety, and data security features.
- **Purpose and Authorized Use:** Enhances public safety while ensuring the protection of individual rights and privacy.
- **Training Requirements:** Federal Aviation Administration (FAA) Part 107 License and department-provided monthly training.
- **Initial Cost:** $110,000
- **Annual Cost:** $3,000

---

2. Armored Vehicle (Partial Ownership)

- **Quantity:** 1
- **Capabilities:** Provides ballistic protection and mobility for high-risk law enforcement operations.
- **Expected Lifespan:** 15 years.
- **Product Description:** Ballistic Engineered Armored Rescue (BEAR) Vehicle with steel armor construction.
- **Purpose and Authorized Use:** Facilitates the safe transport of first responders and/or community members in high-risk situations and serves as a mobile platform for tactical deployments.
- **Training Requirements:** Class B Driver’s License.
- **Initial Cost:** $40,000 (Partial Owner/SCSO)
- **Annual Cost:** None

---

3. Patrol Rifles

- **Quantity:** 28
- **Capabilities:** Capable of firing lethal projectiles.
- **Expected Lifespan:** 20+ years.

- **Product Description:** .223 or 5.56 caliber patrol rifles.
- **Purpose and Authorized Use:** Deployed in situations where officers can articulate the necessity of a rifle for public and officer safety.
- **Training Requirements:** 16-hour POST-approved course with qualification, followed by annual training and requalification.
- **Initial Cost:** $60,000
- **Annual Cost:** $1,500

---

4. Tear Gas Munitions

- **Quantity:** 120
- **Capabilities:** Disperses chemical agents for crowd control when objectively reasonable to prevent a threat to life, serious bodily injury, or to control dangerous and unlawful situations. (Penal Code § 13652)
- **Expected Lifespan:** 5 years.
- **Product Description:** Chemical agent dispersed from a canister.
- **Purpose and Authorized Use:** Utilized in accordance with Policy 428.
- **Training Requirements:** Training by POST-certified chemical agent instructors.
- **Initial Cost:** $1,800
- **Annual Cost:** None

---

5. Kinetic Energy Weapons

- **Quantity:** 18
- **Capabilities:** Deploys kinetic energy projectiles for crowd control in circumstances where the use is objectively reasonable to prevent threats to life or serious bodily injury. (Penal Code § 13652)
- **Expected Lifespan:** 10 years.
- **Product Description:** Powder-activated kinetic energy projectiles deployed from a less-lethal shotgun.
- **Purpose and Authorized Use:** Utilized in accordance with Policy 428.
- **Training Requirements:** Training in safe use, deployment procedures, and device functionality.
- **Initial Cost:** $20,000
- **Annual Cost:** $200

---

6. Ballistic Shields

- **Quantity:** 1
- **Capabilities:** Provides portable ballistic protection for law enforcement personnel in high-risk situations.
- **Expected Lifespan:** 10 years.

- **Product Description:** TBD
- **Purpose and Authorized Use:** Utilized in accordance with applicable department policies.
- **Training Requirements:** Training in safe use, deployment procedures, and functionality.
- **Initial Cost:** TBD
- **Annual Cost:** None

Note: All equipment listed is subject to regular maintenance, training, and operational assessments to ensure effectiveness and compliance with department policies and legal requirements.
